Very grindy, with lots of replay value and LOL moments.. Can't believe I finished this game in three hours. It feels like ages when I play this as a kid.

I didn't even remember that Spy Fox is a witty guy and always cracking an awful jokes.

On that note, the nostalgia is strong with this one.. Got it from a♥♥♥♥♥10 Random Steam Keys and this game was the only Game i checked out and it was better than i expected. :)

. Click Apocalypse: Escape the Item find.

Zombie Clicker: broken Pixel hunt.

I think my Girlfriend bought this for me... either as a joke or a coded why of saying she hates me I am not sure.

Not a lot to say about this game.

it wants to be a frantic click game every other level but Click detection seemed to be off so hits became misses at random.

In between it is a hidden item game where items are not really hidden but the pixel to collect them seems to be (Looking at you shotgun shells)

Even at a dollar Its not worth picking up unless you are REALLY bored... but then you have flash games and Facebook for better quality and price.. i cant banana sorry. This is the kind of stuff that ruins the reputation of Steam. I only tossed a few quarters at this to see if this was real. I guess the developer is laughing all the way to the bank - but at what cost?

This game is so addictive. You completely lose track of time and before you know it the sun is rising. Love playing this game with friends.. This Game Is Fun But Old There Is No Longer A Multiplayer But You Can Play On LAN I Play With My Brother Its Fun To Try And Beat Him Evan Tho I Never Can :3. If you have a VR (and friends) get this!. Superior to the original with new features, new roasts, so on and so forth, but god damn how this game is ruined by the ridiculously low amount of people playing this, leading to 10+ minute wait times in my experience. Stick with the original till this problem is fixed, it's cheaper too.

Actually, what the hell am I doing? Complaining that not many people play this game and solving it by telling people to not play this game? Forget everything I said, this game is the bomb. Come immediately. Wait times are literally in the negative seconds. I have never had more fun.. The YDNJ trivia series is great. I love them.. I bought this game, looking at the trailer and thinking to myself, "Oh, so like a paid Soccer Physics." Boy was I wrong.

While it has the Soccer Physics feel and hilarity, it sets itself away from SP by enabling the player to control 5 players on one team. Once I learned how to play and started the campaign, I was laughing my\2665\2665\2665\2665\2665off. Totally worth it.

Though the Tutorial was a bit tough, but, since there's no game mechanics, the game itself would be very hard. This whole game is just luck, but god damn, is it fun!

10V10 would make a video about it.. Phoenix 5 has better 3d environments than this game does. I like flying pontoon boats, RF8 has 1 3d environment with water. 1! Also, why do all the environments look so dumpy? Like a dirt field next to a cracked out abandoned road. The planes fly great but I certainly expected much more from the environments for RF8 still a whopping \$99.. Its the closest damn thing I can find to Zoo Tycoon so its going to have to do!! Good game for the price.. *** Encountered a fairly common error when transitioning from Chapter 1 to 2. Support team was really helpful and quick to respond by sending me a replacement savegame that bypasses the error.

Pros:

- [+ Beautiful locations](#)
- [+ Great theme](#)
- [+ Intriguing story](#)
- [+ Good price point, especially on sale](#)
- [+ Voice acting](#)
- [+ Good writing](#)
- [+ Beautiful scenes with flickering lighting](#)

Cons:

- [- Tons of pixel hunting for relevant items](#)
- [- The "puzzles" of the game require too specific items or aren't intuitive. Had to frequently dig through hours of walkthrough videos or translating a German pdf walkthrough to find a missed item](#)
- [- Fairly commonly reported bug causes the game to be unplayable in the second half. was sent savegame to bypass error \(see above\)](#)
- [- Flickering lights made streaming nearly impossible as steam had to reload the full screen every frame as the light changed. Would have loved an option to disable this](#)
